CONTENTS Volume 65 2001

Volume 65 No. 1

Sugarcane micropropagation and phenolic excretion
J.C. Lorenzo, M. de los Angeles Blanco, O. Peláez, A. González, M. Cid, A. Iglesias, B. González, M. Escalona, P. Espinosa, C. Borroto **1–8**

Cell culture induced introgression of *Thinopyrum intermedium* chromatin into common wheat
B. Liu, Y. Luan, F. Han, W. Ji, M. He **9–13**

Effect of abscisic acid and jasmonic acid on partial desiccation of encapsulated somatic embryos of sugarcane
N. Nieves, M.E. Martínez, R. Castillo, M.A. Blanco, J.L. González-Olmedo **15–21**

High frequency embryogenesis in immature zygotic embryos of sunflower
M. Sujatha, A.J. Prabakaran **23–29**

Adventitious bud formation in *Alhagi graecorum*
A.M. Hassanein, A.M.A. Mazen **31–35**

Shoot regeneration capacity from roots and transgenic hairy roots of tomato cultivars and wild related species
L.E.P. Peres, P.G. Morgante, C. Vecchi, J.E. Kraus, M.-A. van Sluys **37–44**

Influence of 2,4-D, TIBA and 3,5-D on the growth response of cultured maize embryos
F.B.F. Bronsema, W.J.F. van Oostveen, A.A.M. van Lammeren **45–56**

Optimisation of the second phase of a two phase growth system for anthocyanin accumulation in callus cultures of *Rudbeckia hirta*
M. Luczkiewcz, W. Cisowski **57–68**

Segregation for somatic embryogenesis on stem-internode explants from potato seedlings
J.E.A. Seabrook, L.K. Douglass, G.C.C. Tai **69–73**

An efficient liquid culture system for tea shoot proliferation
I. Sandal, A. Bhattacharya, P. Singh Ahuja **75–80**

In vitro* morphogenesis of *Cucumis melo* var. *inodorus
L.C. Liborio Stipp, B.M. Januzzi Mendes, S.M.D. Stefano Piedade, A.P. Martinelli Rodriguez **81–89**

Volume 65 No. 2

Applications of biotechnology in eggplant
C. Collonnier, I. Fock, V. Kashyap, G.L. Rotino, M.C. Daunay, Y. Lian, I.K. Mariska, M.V. Rajam, A. Servaes, G. Ducreux, D. Sihachakr **91–107**

Somatic embryogenesis and plant regeneration from leaf tissue of jojoba
L. Hamama, M. Baaziz, R. Letouzé **109–113**

Plantlet regeneration from protoplast-derived embryogenic calli of *Crocus cancellatus*
R. Karamian, H. Ebrahimzadeh **115–121**

High frequency adventitious shoot induction and plant regeneration from leaves of statice
J.H. Jeong, H.N. Murthy, K.Y. Paek **123–128**

Leaf number and position effects on the survival and performance of grape microcuttings *in vitro*, and the sensitivity of the cut nodal region to the medium
P. Thomas **129–139**

Microspore embryogenesis and fertile plantlet regeneration in a salt susceptible x tolerant rice hybrid
B. Chowdhury, A.B. Mandal **141–147**

Low temperature effects on growth and actin cytoskeleton organisation in suspension cells of winter oilseed rape
S. Egierszdorff, A. Kacperska **149–158**

Research notes

Plant regeneration from different explants of neem
N.D. Salvi, H. Singh, S. Tivarekar, S. Eapen **159–162**

***In vitro* plant regeneration of *Mammillaria elongata* normal and cristate forms**
M. Papafotiou, G.N. Balotis, P.T. Louka, J. Chronopoulos **163–167**

Micro-propagation of *Alchemilla mollis*
D. Evenor, E. Shlomo, M. Reuveni **169–172**

Book Reviews **173–174**

Volume 65 No. 3

Special Section: Reviews of Plant Biotechnology and Applied Genetics

Commentary: Officially Released Mutant Varieties – The FAO/IAEA Database
M. Maluszynski **175–177**

Automation of somatic embryo production
Y. Ibaraki, K. Kurata **179–199**

Regular articles

Secondary somatic embryogenesis of cassava on picloram supplemented media
J. Groll, D.J. Mycock, V.M. Gray, S. Laminski **201–210**

Study of different antibiotic combinations for use in the elimination of *Agrobacterium* with kanamycin selection in carnation
M. Estopà, V. Marfà, E. Melé, J. Messeguer **211–220**

Gene expression during heat-shock in embryogenic carrot cell lines
D. Milioni, G. Franz, R. Sung, P. Hatzopoulos **221–228**

Effect of culture media and irradiance level on growth and morphology of *Persea americana* Mill microcuttings
G. de la Viña, A. Barceló-Muñoz, F. Pliego-Alfaro **229–237**

Determination of oxygen profiles in agar-based gelled *in vitro* plant tissue culture media
P. Van der Meeren, D. De Vleeschauwer, P. Debergh **239–245**

Modification of plant architecture in *Limonium* spp. induced by *rol* genes
A. Mercuri, S. Bruna, L. De Benedetti, G. Burchi, T. Schiva **247–253**

Research note

Somatic embryogenesis and plantlet regeneration from leaf segments of *Piper colubrinum*
A. Yusuf, R.K. Tyagi, S.K. Malik **255–258**

Instructions for authors **259–263**

Author index **265**

Contents Volume 65 **267–269**
